

Drexel University  
Recruiting Volunteers for a Research Study

**Research Title:** Assessing the Psychometric Properties of the Social Problem-Solving Inventory-Revised-10

**Research Objectives:**

The purpose of this study is to evaluate a new measure designed to understand how an individual typically resolves everyday problems and makes effective decisions. This research may also help to explain, predict, and/or assess changes in problem-solving abilities.

If you would like to participate, you will be asked to answer some basic demographic questions as well as complete several questionnaires about how you solve everyday problems and make decisions. Participation should only last you approximately 30 minutes.

**Information for Research Subjects Eligibility:**

Undergraduates at Drexel University between the ages of 18-29 are invited to participate.

**Remuneration:**

Two extra credit points will be granted via Sona following study completion. You will also be entered into a raffle to win one of three \$50 Amazon gift cards.

*\* This research is approved by the Institutional Review Board. \**
